

## **Environmental Policy / Hill Climb / Auto Club Buzet**

**As the Organiser of the FIA Hill Climb Championship *Buzetski Dani* event we are committed to the following:**

- we are committed to organise our event in compliance with all the environmental regulatory requirements
  - it is our objective to enforce and monitor the prescribed behaviour during our event
  - it is obligatory the cars be placed on protective covers to prevent oil and other dangerous liquids spilling into the ground
- it is obligatory to discard used oil in special containers which are later appropriately disposed of by the local environmental officers
- it is obligatory to keep the paddock clean and throw waste into appropriate containers and bins
- our marshal posts, among other equipment, include sand used to clean oil spillage ensued during the race
- along the track and in the Spectator areas we have bins and waste points where the rubbish is disposed
- before each event we are committed to discuss how to reach and fulfil the stated objectives as effectively as possible
- we are committed - after the event, on the Monday, we sweep the complete area on foot to clean any remaining rubbish
  - as a club we strive to resource all our needs and wants locally.
